# Keyboard classes now starting!

(Introducing the piano to children ages 3-12 years old.)

Music is a wonderful skill for any child. Music education nurtures team spirit, builds self-confidence and self-esteem. Music participation enhances self-expression, memory skills, concentration and coordination.

Next session begins: August 2018

**Your child may start at any time and I will prorate the tuition for you!**

Classes meet once per week, 30 minutes per class!

Children learn fun songs, note reading, ear training and sing!
